

Meat and Trophy Shipping & Handling

All meat from harvested animals must be salvaged and processed whether you wish to keep your meat or you transfer possession of your meat to Deltana Outfitters Inc. to donate. The following cost will be associated with all meat from harvested animals.

Shipping meat from Deadhorse to Delta Meat and Sausage for processing: **\$150.00** to donate it. If you choose to keep your meat, Delta Meat and Sausage will contact you for additional processing fees and shipping fees to your place of residence.

Shipping trophies from Happy Valley to the taxidermist or tannery. We recommend Animal Artistry Taxidermy in Reno NV for the mounting of your trophies. We understand that people have their own taxidermist and wish to have their trophies shipped to them. The following cost will be associated with trophy shipment to Animal Artistry or the taxidermist of your choice. This includes salted and dried capes and the horns or antlers.

Capes with Horns/Split Antlers/Bear: **\$300.00** per animal to Animal Artistry or **\$450.00 per animal** to an individual Address or a different Taxidermist. We can bulk freight ship to Animal Artistry and all individual pieces must be shipped UPS hence the difference in price.

Caribou European Skull Mounts: **\$650.00** per animal. This is due to the size and weight of the crate that has to be built.

There will be no additional charge for shipping a wolf in addition to other trophies.

All trophies must be shipped to a business address or there will be an additional **\$75.00** charge. The shipping company charges **\$75.00** extra to ship to a residential address because they have to transfer from large trucks to smaller ones.
